

PRICE vs CONDITION - KANGAROOS and KGV STAMPS

The Australian philatelic market has changed greatly in recent years, with higher and higher prices being recorded for stamps in superb condition. The price difference between perfect examples and spacefillers can now be as much as 1000%, which means the traditional 3-column pricelist (mint unhinged, mint hinged and fine used) is less and less useful because it does not take condition into account. We have introduced a new way of pricing Australian Kangaroo and KGV stamps, with six different prices for mint and four different prices for used - depending on condition. Each condition type is fully explained below, and:

- When comparing our prices with other dealers' pricelists, use our MUH, Fine Mint and Fine Used categories. We have **highlighted** these three price columns on the following pages to make it easy to compare and see how competitive we are!
- We may not have all stamps available in every condition all the time, so please contact us and check availability before ordering. We have a great new wants list system for scarcer stamps, so if we don't have what you're after straight away we can let you know as soon as one becomes available.
- Lesser quality stamps are usually available, and stamps we class as Average Mint and Average Used are perfectly acceptable for most collectors. They are a fantastic way to extend your collection without spending a fortune, and spacefillers are great for filling those difficult spaces on a budget.

PREMIUM QUALITY STAMPS - for the connoisseur

MUHCW - mint unhinged well centered

Full original gum that has never been hinged, excellent centering and full perfs. Examples of this quality are simply stunning and, for the rarer stamps, extremely difficult to obtain.

MLHCW - mint lightly hinged well centered

Mint condition with lightly hinged gum, excellent centering and full perfs. As stunning as unhinged when viewed from the front, however because the gum has been lightly hinged they are much less expensive.

VFUWC - very fine used and well centered

Excellent with full perfs, excellent centering and a fine, light cancellation. Depending on the stamp, this category can also include top cancelled-to-order (CTO) examples.

VERY GOOD STAMPS - for collectors who want quality stamps at great prices

MUH - mint unhinged

Mint stamps with never hinged original gum, reasonable centering for the issue, full perfs and no toning, thins or faults. This category is very acceptable to the vast majority of collectors, and rarer stamps in this condition are very hard to find. This condition type should be used when comparing our MUH prices with others.

Fine Mint - also known as mint hinged

Mint condition with hinged gum, reasonable centering for the issue, full perfs and no toning, thins or faults. One of the most popular condition types for early Australian stamps, as they're lovely stamps that are also much more affordable than unhinged examples. This category corresponds to "MLH" on our previous pricelist.

Fine Used

Good quality stamps with reasonable centering for the issue, full perfs and no toning, thins or faults. An attractive cancellation. This category corresponds to "FU" on our previous list, and this condition type should be used when comparing our used prices with others.

LESSER QUALITY STAMPS - for collectors on a budget

Average Mint

Mint stamps with off-centre centering and/or possibly (but not always!) one or two small blemishes, such as a short perf or tone spot. In most respects these stamps are in reasonable condition, and they are valued at around 60% of Fine Mint prices.

Spacefiller Mint

Mint stamps with off-centre centering and/or several faults such as short perfs, folds or thins. Not the most attractive category but certainly the cheapest, with prices generally just half of Average Mint.

Average Used

Used stamps with one or more of the following: off-centre centering, a heavy cancel or multiple cancels, or sometimes they are an attractive stamp with one or two minor blemishes such as a short perf or tone spot. They offer fair condition at a very affordable price, generally only 60% of our Fine Used prices.

Spacefiller Used

The least-expensive way to collect, stamps in this category are usually off-centre with a heavy cancel, and/or they have some faults such as short perfs, folds or thins. For very rare stamps, this is by far the most affordable condition type and therefore is popular.

About "Average Used": these may have small thins, short perfs or a revenue cancel, but are still quite acceptable given their age and usage at the time. And very affordable!
